May, 1967 - April, 1968

TRAFFIC ENGINEERING & CONTROL

INDEX TO VOLUME 9

May, 1967 – April, 1968

	Month	Page
Allocation of costs to road users, W. T. F. Austin	June	105
Area control of road traffic: State of art in the United States, A. A. Carter and J. Rous	July	156
Area traffic control by computer, Equipment in the Glasgow Experiment, J. A. Hillier	Feb.	496
Area traffic control in Helsinki, H. K. Salmivaara	July	146
Australian Study Week on Road Safety Practices, H. J. Turner and A. J. Fisher	Oct.	300
Capacity restraint assignment. Edinburgh Inner Ring Road Study, G. M. Dickson	Dec.	395
Car parks on restricted sites, J. Brierley	Jan.	444
Carriageway markings in Europe		
1. British and European standards compared, K. Summerfield		
2. Road markings in the Federal Republic of Germany, S. Giesa		
3. Swedish road markings, G. Tornberg		
4. The Netherlands, H. Schram		
5. Road markings in Italy, F. Tronconi	Apr.	613
Case for a traffic balance, Wilfred Burns	Oct.	280
Case for road pricing, J. M. Thomson	Mar.	536
Centralised computer control of traffic signals, Gerhard Pavel	Sep.	232
Chippenham Relief Road, C. R. Chadwick	Jan.	428
City of Worcester Study techniques, Martin G. Richards and John R. Crosby		
1. Data collection and grid zoning	June	89
2. Time function iteration	July	148
3. Gravity model and time function iteration	Aug.	187
City traffic congestion – A Soviet solution, Alexei Pryakhin	May	43
Data transmission in area traffic control, H. T. Tillotson	Apr.	608
Design critera for pedestrian bridges, David Davies	Sep.	259
Design vehicle criteria and geometric design, Arthur Henderson and Michael Cole	Jan.	431
Distribution of signalled intersections in Greater London, B. L. Allen	Sep.	242
Equipment in the Glasgow Experiment, J. A. Hillier	Feb.	496
Evaluation of the conflict hazard of uncontrolled Junctions, M. Peleg	Nov.	346
Forecasting by land use/traffic model technique, A. Neville Crowther and Hans B. Barbe	Aug.	182
General-purpose data acquisition system, P. A. Seddon	Nov.	359
Generation of business trips in Central London, Richard Hickman	Dec.	384
Inpact of containerisation on transport systems, N. N. B. Ordman	June	93
Impact of modal split on transport policy, T. Constantine, D. Maltby and P. Jackson	Feb.	480
Instrumentation in traffic engineering, F. D. Hobbs and B. D. Richardson		
2. Vehicle detectors and data transmission	May	54
3. Volume measurement	June	108
4. Speed measurements	July	158
5. Photography, measurement of concentration, vehicle mounted instruments	Aug.	202
6. Vehicle mounted equipment, vehicle mounted instruments, general equipment	Sep.	250
International regulation of road transport, F. D. Masson	June	97
Intersection control by vehicle actuated signals, R. W. J. Morris and P. G. Pak-Poy	Oct.	288
Introduction to traffic engineering, R. Lane*		
1. Scope of traffic engineering	Oct.	294
2. Traffic management	Nov.	351
3. Basic characteristics: road user, vehicle, speed and flow	Dec.	398
4. Road capacity	Jan.	440
5. Intersection capacity	Feb.	492
6. Transportation planning	Mar.	545
Introduction to traffic science, W. R. Blunden†		
4. Transport system characteristics and performance	June	100
5. The transport planning process	July	153
6. The transport planning process	Aug.	194
7. Programming methods, evaluation and review	Sep.	246
I.R.F. Middle East Regional Meeting	July	160
Journey speed and flow in central urban areas, J. G. Wardrop	Mar.	528
Landscaping and roads, R. W. Rose	July	140
Lighting Section:		
Progress in street lighting, Granville Berry	May	59
Lighting road junctions and roundabouts, Denis R. Colvin	Sep.	252
Impact of street lighting on road accidents, H. F. Cork	Oct.	297
Lighting Engineers in conference	Dec.	404
Influence of lighting on cost of road accidents, Granville Berry	Jan.	450
Influences on current and future street lighting practice, A. Wilcock	Mar.	548
Lighting of French motorways, J-C. Baillif	Apr.	623
London traffic management in the States of Guernsey, K. W. Rowe	Feb.	488
Motorway service areas, Bev Nutt	June	84
Movement of vehicles from a stationary queue, J. A. Ferguson	Dec.	388
Munich's traffic control centre, Werner Bolke	Aug.	190
Ninth International Study Week in Traffic and Safety Engineering	Jan.	452
Parking – Who pays?, A. C. Durie	May	47
Part-time courses in traffic engineering	Aug.	204
Paying for parking, John Brierley	Aug.	185
Peak hour traffic: measurement of growth, G. G. Dobson	July	151
Pilot transportation study, Sheffield, T. Constantine, D. Maltby and P. Jackson	Nov.	332
Predicting travel mode choice for the work journey, P. R. Stopher	Jan.	436
Progress on transport planning, Rt. Hon. Barbara Castle	May	28
Public transport systems, A. Henderson	Apr.	606
Public transport's role in urban areas, R. F. Bennett and D. McCorquodale	Apr.	596
Recent German road traffic research, N. Seymer	Apr.	612
Report from London, P. F. Stott	Apr.	592
Research Group in Traffic Studies, University College, London, Progress Report 1967, R. J. Smeed	Feb.	499
Research in the United Kingdom, University of Birmingham	Sep.	245
Research in the United States, Bureau of Public Roads	Sep.	244
Road hazard lamps, L. C. Ellaway	Mar.	553
Road markings as an aid to traffic movement, F. M. Hale	May	57
Road Pricing, Nathaniel Lichfield	Feb.	485
Road Research progress report	Aug.	206
Road safety practices. Report of Australian Study Week, H. J. Turner and A. J. Fisher	Oct.	300

	Month	Page
Road traffic at Heathrow, A. J. Munds	Dec.	380
Road traffic technique, Congress Report	Dec.	402
Route factors in road networks, Janice A. Timbers	Dec.	392
SELNEC Area Traffic Management Unit 1966-67, K. M. Ledson	Mar.	540
Service precincts in Watford, B. L. Williams and G. Williams	Aug.	197
Small town traffic problems, Colin Buchanan	Aug.	200
State of art in the United States, A. A. Carter and J. Rous	July	156
Structure and management – Transportation in Greater London, P. F. Stott	May	35
Studies and surveys:		
City of Worcester Study techniques, M. Richards and J. R. Crosby		
1. Data collection and grid zoning	June	89
2. Time function iteration	July	148
3. Gravity model and time function iteration West Midlands Transport Study, John K. Williams	Aug.	187
Pilot transportation study, Sheffield. T. Constantine, D. Maltby and P. Jackson	Sep.	237
Edinburgh Inner Ring Road Study:	Nov.	332
Capacity restraint assignment, G. M. Dickson	Dec.	395
Technical problems of urban traffic control, D. J. Lyons	May	31
Thirteenth World Road Congress	Jan.	448
Traffic capacity of rural two-lane highways, J. H. Fletcher	Mar.	533
Traffic dynamics: visual angle car following models, Joe Lee and John Hugh Jones	Nov.	348
Traffic engineering equipment, F. Wright	May	56
Traffic engineering in Newcastle upon Tyne, P. Morris and R. A. Murray	Apr.	602
Traffic Engineers at work:		
1. Chippenham Relief Road, C. R. Chadwick	Jan.	428
2. London traffic management in the States of Guernsey, K. W. Rowe	Feb.	488
3. SELNEC Area Traffic Management Unit 1966-67, K. M. Ledson	Mar.	540
4. Traffic engineering in Newcastle upon Tyne, P. Morris and R. A. Murray	Apr.	602
Traffic generation of a large department store, J. Th. Gantvoort	Oct.	285
Traffic panorama, Colin Buchanan	May	40
Traffic signals: saturation flow and lost time, E. Grant and A. D. Simpson	Nov.	344
Transport problems in the Paris area, Pierre Merlin	May	50
Transportation Engineering Group:		
Traffic engineering equipment, F. Wright	May	56
Road markings as an aid to traffic movement, F. M. Hale	May	57
Allocation of costs to road users, W. T. F. Austin	June	105
Travel estimates from census data, H. J. Wootton and G. W. Pick	July	142
Urban renewal. Brussels Seminar	Nov.	354
User's valuation of freight services, Ian Heggie	Sep.	241
West London Traffic Control Scheme comes into operation	Feb.	503
West Midlands Transport Study, John K. Williams	Sep.	237

*Now published in booklet form as 'Elements of Traffic Engineering', price 7s 6d UK, 9s other countries.

††Now published in booklet form, price 10s UK, 12s other countries.

INDEX TO AUTHORS

	Month	Page
Allen, B. L. – Distribution of signalled intersections in Greater London	Sep.	242
Austin, W. T. F. – Allocation of costs to road users	June	105
Baillif, J-C. – Lighting of French motorways	Apr.	623
Bennett, R. F. and D. McCorquodale – Public transport's role in urban areas	Apr.	596
Berry, Granville – Progress in street lighting – Influence of lighting on cost of road accidents	May Jan.	59 450
Blunden, W. R. – Introduction to traffic science.		
(4) Transport system characteristics and performance	June	100
(5) The transport planning process	July	153
(6) The transport planning process	Aug.	194
(7) Programming methods, evaluation and review	Sep.	246
Bolke, Werner – Munich's traffic control centre	Aug.	190
Brierley, John – Paying for parking	Aug.	185
– Car parks on restricted sites	Jan.	444
Buchanan, Colin – Traffic panorama	May	40
– Small town traffic problems	Aug.	200
Burns, Wilfred – Case for a traffic balance	Oct.	280
Carter, A. A. and J. Rous – State of art in the United States. Area control of road traffic	July	156
Castle, Rt. Hon. Barbara – Progress on transport planning	May	28
Chadwick, C. R. – Chippenham Relief Road	Jan.	428
Colvin, Denis R. – Lighting road junctions and roundabouts	Sep.	252
Constantine, T., D. Maltby and P. Jackson – A pilot transportation study	Nov.	332
– Impact of modal split on transport policy	Feb.	480
Cork, H. F. – Impact of street lighting on road accidents	Oct.	297
Crowther, A. Neville and Hans B. Barbe – Forecasting land use/traffic model technique	Aug.	182
Davies, David – Design criteria for pedestrian bridges	Sep.	259
Dickson, G. M. – Capacity restraint assignments: Edinburgh Inner Ring Road Study	Dec.	395
Dobson, G. G. – Peak hour traffic: Measurement of growth	July	151
Durie, A. C. – Parking – Who pays?	May	47
Ellaway, L. C. – Road hazard lamps	Mar.	553
Ferguson, J. A. – Movement of vehicles from a stationary queue	Dec.	388
Fletcher, J. H. – Traffic capacity of rural two-lane highways	Mar.	533
Gantvoort, J. Th. – Traffic generation of a large department store	Oct.	285
Giesa, S. – Road markings in the Federal Republic of Germany	Apr.	613
Grant, E. and A. D. Simpson – Traffic signals: saturation flow and lost time	Nov.	344
Hale, F. M. – Road markings as an aid to traffic movement	May	57
Heggie, Ian – User's valuation of freight services	Sep.	241
Henderson, A. – Public transport systems	Apr.	606
Henderson, A. and Michael Cole – Design vehicle criteria and geometric design	Jan.	431
Hickman, Richard – Generation of business trips in Central London	Dec.	384
Hillier, J. A. – Equipment in the Glasgow Experiment	Feb.	496
Hobbs, F. D. and B. D. Richardson – Instrumentation in traffic engineering.		
(2) Vehicle detectors and data transmission	May	54
(3) Volume measurement	June	108
(4) Speed measurements	July	158
(5) Photography, measurement of concentration, vehicle mounted instruments (1)	Aug.	202
(6) Vehicle mounted equipment, vehicle mounted instruments (2) general equipment	Sep.	250
Lane, R. – Introduction to traffic engineering.		
(1) Scope of traffic engineering	Oct.	294
(2) Traffic management	Nov.	351
(3) Basic characteristics: road user, vehicle, speed and flow	Dec.	398
(4) Road capacity	Jan.	440
(5) Intersection capacity	Feb.	492
(6) Transportation planning	Mar.	545
Ledson, K. M. – SELNEC Area Traffic Management Unit 1966-67	Mar.	540
Lee, Joe and John Hugh Jones – Traffic dynamics: visual angle car following models	Nov.	348
Lichfield, Nathaniel – Road pricing	Feb.	485
Lyons, D. J. – Technical problems of urban traffic control	May	31
Masson, F. D. – International regulation of road transport	June	97
Merlin, Pierre – Transport problems in the Paris area	May	50
Morris, P. and R. A. Murray – Traffic engineering in Newcastle upon Tyne	Apr.	602
Morris, R. W. J. and P. G. Pak-Poy – Intersection control by vehicle actuated signals	Oct.	288
Munds, A. J. – Road traffic at Heathrow	Dec.	380
Nutt, Bev – Motorway service areas	June	84
Ordman, N. N. B. – Impact of containerisation on transport systems	June	93
Pavel, Gerhard – Centralised computer control of traffic signals	Sep.	232
Peleg, M. – Evaluation of the conflict hazard of uncontrolled Junctions	Nov.	346
Pryakhin, Alexei – City traffic congestion – A Soviet solution	May	43
Richards, Martin G. and John R. Crosby – City of Worcester Study techniques		
(1) Data collection and grid zoning	June	89
(2) Time function iteration	July	148
(3) Gravity model and time function iteration	Aug.	187
Rose, R. W. – Landscaping and roads	July	140
Rowe, K. W. – London traffic management in the States of Guernsey	Feb.	488
Salmivaara, H. K. – Area traffic control in Helsinki	July	146
Schram, H. – Carriageway markings in The Netherlands	Apr.	613
Sedden P. A. – A General-purpose data acquisition	Nov.	339
Seymer, N. – Recent German road traffic research	Apr.	612
Smeed, R. J. – Research Group in Traffic Studies, University College London, Progress Report 1967	Feb.	499
Stopher, P. R. – Predicting travel mode choice for the work journey	Jan.	436
Stott, P. F. – Structure and Management – Transportation in Greater London	May	35
– Report from London	Apr.	592
Summerfield, K. – Carriageway markings in Europe: British and European standards compared	Apr.	613
Thomson, J. M. – Case for road pricing	Mar.	536
Tillotson, H. T. – Data transmission in area traffic control	Apr.	608
Timbers, Janice A. – Route factors in road networks	Dec.	392
Tornberg, G. – Swedish road markings	Apr.	613
Tronconi, F. – Road markings in Italy	Apr.	613
Turner, H. J. and A. J. Fisher – Report on Australian Study Week on Road Safety Practices	Oct.	300
Wardrop, J. G. – Journey speed and flow in central urban areas	Mar.	528
Wilcock A. – Influences on current and future street lighting practice	Mar.	548
Williams, B. L. and G. Williams – Service precincts in Watford	Aug.	197
Williams, John K. – West Midlands Transport Study	Sep.	237
Wootton, H. J. and G. W. Pick – Travel estimates from census data	July	142
Wright, F. – Traffic engineering equipment	May	56
